Crowley Lake - el. 6,781', 5,183 acres. Drive to, boat rentals. Rainbow, browns, eagle lake rainbows, kamloops, Sacramento perch.

POINTS OF INTEREST

MINARET VISTA - Two miles past the Mammoth Ski area, a magnificent view of the rugged peaks of the Ritter Range. In the deep canyon below winds the middle fork of the San Joaquin River. Enjoy a fifteen minute self-guiding nature walk along the summit.

INYO CRATERS - Five miles north of Mammoth junction and four miles west of U.S. Highway 395 by dirt road, plus a short walk leads to three small craters or volcanic blast pits. Craters are not uncommon in this area, but these craters are unique in that they are only a few hundred years old and contain small lakes.

EARTHQUAKE FAULT - Two miles off Highway 203 on the Minaret Summit road is located the best known of many factures within the Mammoth area. Since there is no vertical or horizontal displacement, this is not a true fault, but a fissure. A self-guiding trail leads into this natural crack in the earth's surface, which is snow filled and cool even in mid-summer.

DEVILS POSTPILE - located 14 miles from the Mammoth Visitor Center via the Reds Meadow road (the last 8 miles are very rough, narrow and winding). This unusual formation is the result of lava which poured through Mammoth Pass. As the lava cooled, it solidified and cracked to form three to seven sided columns 40 to 60 feet high. Glaciers later exposed and polished these posts of basaltic rock. A short quarter mile trail leads to this geologic feature preserved within the Devils Postpile National Monument. Conducted tours are offered by the National Park Service in July and August. Closed by snow 7 or 8 months of the year. Road opens sometime between Memorial Day and Fourth of July, depending on the snowpack.

RAINBOW FALLS - An easy one mile walk from Reds Meadow, the San Joaquin River plunges 140 feet over a lava ledge into a deep gorge. Colors in the mist are usually best during midday.

HOT CREEK FISH HATCHERY - Three miles south of Mammoth junction and one mile east of U.S. Highway 395 is a California State Fish Hatchery. The warm springs of Hot Creek provide ideal temperatures for incubation of trout eggs and continual development of trout to planting size. Visiting hours - 8 AM to 5 PM daily.

HOT CREEK - Five miles south of Mammoth junction on Highway 395 and three miles east on a dirt road is a phenomena of live hot springs and fumaroles (gas vents) which heat a cold mountain stream for year-round bathing. Road not plowed in winter.

MAMMOTH MOUNTAIN - This pumice covered mountain (inactive volcanic dome) is the present site of the nation's most popular ski area. During summer months, commercial gondola rides are available to the 11,053 foot summit providing spectacular views of the Sierra Nevada and White Mountain ranges.

TENNIS — court facilities have expanded greatly in the past two years. Two public courts (another two to be under construction shortly) are located on Forest Trail near Minaret Rd. Many condominium projects now feature courts for guests as well as a single court frequently open to the public at Mammoth Mt. Ski area.

BOATING & WATER SKIING — Fishing boats available at many nearby lakes (See "Fishing Information" on Inyo National Forest map on inside fold). Sailing features on Horseshoe and Crowley Lakes. Water skiing to open on Crowley July 4th and this year continue through August.

SWIMMING — Pools and jacuzzis, of course, abound in Mammoth at Condominium projects but for those seeking a more natural setting, there's Hot Creek — natural hot springs located near airport — or Horseshoe Lake which provides a "sandy" bathing area.

FISHING & HUNTING — Well stocked lakes dot the entire area and are a delight for any angler. Other than Crowley Lake, the season extends until October 31st and remains open all year on the Owens River below the Crowley Lake Dam. Please consult U.S.F.S. for hunting season regulations and game animals.

HORSEBACK RIDING & PACK TOURS
Saddle horses are available at several locations, namely: Twin Lakes, Red's and Agnew Meadow, and Convict Lake. Horses may be checked out individually or riders may opt to ride with guides or pack groups on day or overnight trips.

HIKING — Trails lace the Mammoth Lakes-Inyo National Forest Area. Easy hikes as well as adventures into the rugged John Muir Wilderness await all who yearn to see the beautiful Sierras on foot. U.S. Forest Service hosts guided tours daily throughout the summer. Please stop by U.S.F.S. Visitor's Center for tour schedules.

ARTS & CRAFTS — The 6th Invitational Arts & Crafts Festival will be held Aug. 30, 31 and Sept. 1 and feature the work and craftsmanship of artists in much the manner of the Southland's Saw Dust Festival. Refreshments will be available and the public is welcome. Please consult the Chamber of Commerce for location.
